COMPUTER ARCHITECTURE
UNIT-I (Assignment Questions)
Submission date: 28 Aug 2026

1) Explain Micro-computer system architecture with a neat diagram.
2) What is Micro operation? Briefly explain the arithmetic micro operations?
3) Briefly explain the Logical and Shift micro operations.
4) Briefly explain the arithmetic logic shift unit (ALU).
5) What is RTL (Register Transfer Language)? What is its significance? Explain with suitable examples.
6) How data is transferred from one register to another register? Design the hardware circuit for data transfer from Register to common bus and common bus to register.
